Soups are probably the easiest meal to prepare and cook. You can practically just combine any vegetable, broth, and cream together and then season it with salt and pepper. Viola! You have a soup of your own version.

Now what we do not know is that aside from being a comfort food, soups can also bring us a lot of health benefits. For one, it is packed with vitamins and nutrients, of course this varies depending on which fruit or vegetables you use.

Also, the American Heart Association is recommending that we eat more than 8 servings of fruit and vegetables per day. That is crazy, right? Especially when we are busy with work and other stuffs. I have a good news for all of you, especially for those who doesn't like eating raw or chunked veggies; eating a bowl of vegetable or fruit soup a day can compensate with the said nutrition requirement.
