The Psychology of Goals

The Psychology of Goals

Bringing together leading authorities, this tightly edited volume reviews the breadth of current knowledge about goals and their key role in human behavior. Presented are cutting-edge theories and findings that shed light on the ways people select and prioritize goals; how they are pursued; factors that lead to success or failure in achieving particular aims; and consequences for individual functioning and well-being. Thorough attention is given to both conscious and nonconscious processes. The biological, cognitive, affective, and social underpinnings of goals are explored, as is their relationship to other motivational constructs.
