The Rise of the Image, the Fall of the Word Mitchell Stephens

For decades educators and cultural critics have deplored the corrosive effects of electronic media on the national consciousness. The average American reads less often, writes less well. And, numbed by the frenetic image-bombardment of music videos, commercials and sound bites, we may also, it is argued, think less profoundly. But wait. Is it just possible that some good might arise from the ashes of the printed word? Most emphatically yes, argues Mitchell Stephens, who asserts that the moving image is likely to make our thoughts not more feeble but more robust. Through a fascinating overview of previous communications revolutions, Stephens demonstrates that the charges that have been leveled against television have been faced by most new media, including writing and print. Centuries elapsed before most of these new forms of communication would be used to produce works of art and intellect of sufficient stature to overcome this inevitable mistrust and nostalgia. Using examples taken from the history of photography and film, as well as MTV, experimental films, and Pepsi commercials, the author considers the kinds of work that might unleash, in time, the full power of moving images. And he argues that these works--an emerging computer-edited and -distributed "new video"--have the potential to inspire transformations in thought on a level with those inspired by the products of writing and print. Stephens sees in video's complexities, simultaneities, and juxtapositions, new ways of understanding and perhaps even surmounting the tumult and confusions of contemporary life.

Sure to spark lively--even heated--debate, *The Rise of the Image, the Fall of the Word* belongs in the library of millennium-watchers everywhere.

This kind of book was represented just how can the world has grown up. The vocabulary styles that writer use for explain it is easy to understand. The writer made some research when he makes this book. Here is why this book suited all of you.

Tanya McGaha:

As a student exactly feel bored in order to reading. If their teacher questioned them to go to the library in order to make summary for some reserve, they are complained. Just little students that has reading's spirit or real their interest. They just do what the educator want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that looking at is not important, boring and also can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this The Rise of the Image, the Fall of the Word can make you feel more interested to read.
