Computational Intelligence for Decision Support in Cyber-Physical Systems (Studies in Computational Intelligence)

Computational Intelligence for Decision Support in Cyber-Physical Systems (Studies in Computational Intelligence)

This book is dedicated to applied computational intelligence and soft computing techniques with special reference to decision support in Cyber Physical Systems (CPS), where the physical as well as the communication segment of the networked entities interact with each other. The joint dynamics of such systems result in a complex combination of computers, software, networks and physical processes all combined to establish a process flow at system level.

This volume provides the audience with an in-depth vision about how to ensure dependability, safety, security and efficiency in real time by making use of computational intelligence in various CPS applications ranging from the nano-world to large scale wide area systems of systems.

Key application areas include healthcare, transportation, energy, process control and robotics where intelligent decision support has key significance in establishing dynamic, ever-changing and high confidence future technologies. A recommended text for graduate students and researchers working on the applications of computational intelligence methods in CPS.

From reader reviews:

Ryan Calhoun:

Here thing why this specific Computational Intelligence for Decision Support in Cyber-Physical Systems (Studies in Computational Intelligence) are different and trustworthy to be yours. First of all studying a book is good nonetheless it depends in the content from it which is the content is as yummy as food or not. Computational Intelligence for Decision Support in Cyber-Physical Systems (Studies in Computational Intelligence) giving you information deeper since different ways, you can find any publication out there but there is no publication that similar with Computational Intelligence for Decision Support in Cyber-Physical Systems (Studies in Computational Intelligence). It gives you thrill reading through journey, its open up your own eyes about the thing this happened in the world which is maybe can be happened around you. It is easy to bring everywhere like in recreation area, café, or even in your way home by train. If you are having difficulties in bringing the printed book maybe the form of Computational Intelligence for Decision Support in Cyber-Physical Systems (Studies in Computational Intelligence) in e-book can be your choice.

Michael Pabon:

Now a day individuals who Living in the era just where everything reachable by connect to the internet and the resources inside it can be true or not call for people to be aware of each facts they get. How many people to be smart in having any information nowadays? Of course the solution is reading a book. Reading through a book can help folks out of this uncertainty Information mainly this Computational Intelligence for Decision Support in Cyber-Physical Systems (Studies in Computational Intelligence) book because book offers you rich facts and knowledge. Of course the details in this book hundred per-cent guarantees there is no doubt in it as you know.

Ross Adams:

Spent a free time for you to be fun activity to accomplish! A lot of people spent their leisure time with their family, or their friends. Usually they accomplishing activity like watching television, planning to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Do you need to something different to fill your free time/ holiday? May be reading a book might be option to fill your free time/ holiday. The first thing that you ask may be what kinds of reserve that you should read. If you want to consider look for book, may be the book untitled Computational Intelligence for Decision Support in Cyber-Physical Systems (Studies in Computational Intelligence) can be excellent book to read. May be it is usually best activity to you.

Robert Wilkes:

Your reading 6th sense will not betray you, why because this Computational Intelligence for Decision Support in Cyber-Physical Systems (Studies in Computational Intelligence) publication written by well-known writer who knows well how to make book that could be understand by anyone who have read the

book. Written in good manner for you, leaking every ideas and creating skill only for eliminate your hunger then you still hesitation Computational Intelligence for Decision Support in Cyber-Physical Systems (Studies in Computational Intelligence) as good book not merely by the cover but also by the content. This is one book that can break don't judge book by its cover, so do you still needing an additional sixth sense to pick that!?! Oh come on your looking at sixth sense already told you so why you have to listening to one more sixth sense.
