Game Engine Gems 3

Game Engine Gems 3

This book, the third volume in the popular **Game Engine Gems** series, contains 22 new chapters that concisely present particular techniques, describe clever tricks, or offer practical advice within the subject of game engine development. Each chapter is filled with the expert knowledge and wisdom of seasoned professionals from both industry and academia.

The book is divided into four broad categories pertaining to game engine development:

- Graphics and rendering
- Physics
- General programming
- Character control and artificial intelligence

There is also a companion website, gameenginegems.com, where updates and supplementary materials are posted. Many chapters offer downloadable source code, demos, and examples.

Covering the latest developments and continuing to provide practical methods and tips for game engine development, **Game Engine Gems 3** is indeed a new gem in the series. Not only does it aid professionals in their work, but it also shows students and others interested in game development how the pros tackle specific problems that arise during game engine development.
