All unclassified Army and Marine Corps manuals and correspondence courses are products of the US Federal Government. They are NOT subject to copyright and can be freely copied and redistributed. The Marine Corps Institute (MCI) develops correspondence courses for Marines with all kinds of Military Occupational Specialties (MOS) on all manner of subjects. This is one of those courses. The print is relatively small because that is the way it was in the original and this is an exact reproduction. Also, as a tribute to the individual (and a touch of reality), you will notice that the editorial pencil marks and underlined passages that were put there by the Marine that took this course. They were intentionally left in the reproduction. This version of the course was authorized in September of 1984. With the exception the development of Infrared technology, it contains information and techniques that have changed very little since the Vietnam war. These battle proven tactics are as valid today as they were in Quang Nam province in 1968. They will maintain their validity during the upcoming inevitable event of total economic, political and social collapse. Yours for freedom in our lifetimes. jtl, 419
