By the very nature of crime its efficient vehicle of transmission is ephemeral, very ephemeral. The vernacular of twenty-five years ago is almost oblivion today. So with the future; provided, of course, that the idiom of the underworld surrender its meaning to the social layers superimposed upon it. This process can be made effective by investigation and publicity. When bench and bar, the press, custodians of law and order and private agencies devoted to the detection, repression and correction of crime are made familiar with the wiles and mode of communication of criminals, the latter are rendered less powerful insofar as the evolved system of guile and wrong-doing are concerned.

To fraternize with a secret order we must equip ourselves with a knowledge of the ceremonies and aims as well as the selective means of the secret fraternists. To combat criminals successfully it is necessary to understand their complete vehicles of intercommunication, else the investigator is unqualified to fraternize with them so as to gain a fuller insight both into their actions and the living motives concealed behind them. Unquestionably, every term in the vocabulary is known to some officer of the law; unquestionably, too, every term contained therein is understood by but very few individuals even amongst criminals themselves. Therefore it would seem a distinct gain to become familiar with them all.
