Intellectual and Developmental Disabilities: Toward Full Community Inclusion Paul Wehman, Phillip J. McLaughlin, Therese Wehman

Previously published as *Mental Retardation and Developmental Disabilities*, this premier text has been significantly expanded and contemporized. The third edition reflects the many changes which have occurred in terms of law, legal actions, and changes in policy and practices throughout the field. The term mental retardation is rapidly disappearing in many circles and being replaced by the term intellectual disabilities. Parents and professionals are placing an increased emphasis on the use of supports, person-centered planning, self-determination, and consumer-driven controls over funds. Additionally, the importance of full community inclusion is being stressed more than ever. Full community inclusion, whether it is in education, living, or school environments, is a major theme throughout the book.
