Arboriculture: Integrated Management of Landscape Trees, Shrubs, and Vines (4th Edition) Richard W. Harris Professor Emeritus, James R. Clark, Nelda P. Matheny

Regarded by many as an irreplaceable reference tool, this book describes the integration of the landscape environment (climate, soil, and related organisms), its effect on landscape plants, and how to manage both to obtain the desired results with reasonable effort. All aspects of tree, shrub, and vine care are covered, including plant structure and function, plant selection, site analysis and preparation, environmental influences on growth, soil, water and nutrient management, pruning, transplanting, and plant health care. A valuable handbook for professionals, including arboricultural consultants, arborists, urban foresters, landscape architects, landscape contractors (installation and/or maintenance), state and county horticultural extension advisors, park directors and staff (federal, state, regional, and local), street tree superintendents and staff, grounds superintendents and staff (golf courses, college and school grounds, cemeteries, condominiums, retirement communities, theme parks, etc.), arboretum and botanic garden directors and staff, nursery growers and retailers.
