Outline Maps on File

This collection is the ultimate source for more than 250 maps that indicate physiographic features of individual countries, island groups, states, Canadian provinces, continents, and major geographical regions - without labels. The updated and expanded edition of Outline Maps On File[trademark] is an invaluable cartographic resource. Label the World Your Way; Each map contains only the unlabeled major physical features of a particular area and is accompanied by a scale and a north indicator, allowing users to customize and create their own maps. Use Our Symbols as Your Guide; The inclusion of unlabeled major rivers, major cities, and other important features offers a solid geographical foundation for study and testing. A legend of symbols helps users differentiate the many physical features each map details. A Blank Canvas for Your Every Cartographic Need; Like every On File[trademark], all the maps in this collection are designed for reproduction as educational supplements or for other classroom needs. Maps can be customized for reports, study aids, tests, business presentations, and much more. The applications of this ultimate resource are truly unlimited.
