Essential Mathematics and Statistics for Forensic Science

Craig Adam

Essential Mathematics and Statistics for Forensic Science Craig Adam
This text is an accessible, student-friendly introduction to the wide range of mathematical and statistical tools needed by the forensic scientist in the analysis, interpretation and presentation of experimental measurements.

From a basis of high school mathematics, the book develops essential quantitative analysis techniques within the context of a broad range of forensic applications. This clearly structured text focuses on developing core mathematical skills together with an understanding of the calculations associated with the analysis of experimental work, including an emphasis on the use of graphs and the evaluation of uncertainties. Through a broad study of probability and statistics, the reader is led ultimately to the use of Bayesian approaches to the evaluation of evidence within the court. In every section, forensic applications such as ballistics trajectories, post-mortem cooling, aspects of forensic pharmacokinetics, the matching of glass evidence, the formation of bloodstains and the interpretation of DNA profiles are discussed and examples of calculations are worked through. In every chapter there are numerous self-assessment problems to aid student learning.

Its broad scope and forensically focused coverage make this book an essential text for students embarking on any degree course in forensic science or forensic analysis, as well as an invaluable reference for post-graduate students and forensic professionals.

Key features:

- Offers a unique mix of mathematics and statistics topics, specifically tailored to a forensic science undergraduate degree.
- All topics illustrated with examples from the forensic science discipline.
- Written in an accessible, student-friendly way to engage interest and enhance learning and confidence.
- Assumes only a basic high-school level prior mathematical knowledge.

From reader reviews:

Ellen Jones:

What do you in relation to book? It is not important with you? Or just adding material when you want something to explain what yours problem? How about your time? Or are you busy particular person? If you don't have spare time to accomplish others business, it is make one feel bored faster. And you have time? What did you do? All people has many questions above. They must answer that question due to the fact just their can do that. It said that about publication. Book is familiar on every person. Yes, it is proper. Because start from on kindergarten until university need this specific Essential Mathematics and Statistics for Forensic Science to read.

Aaron Martinez:

People live in this new time of lifestyle always aim to and must have the extra time or they will get wide range of stress from both everyday life and work. So , whenever we ask do people have extra time, we will say absolutely indeed. People is human not just a robot. Then we inquire again, what kind of activity are there when the spare time coming to a person of course your answer may unlimited right. Then do you try this one, reading publications. It can be your alternative inside spending your spare time, the particular book you have read will be Essential Mathematics and Statistics for Forensic Science.

Claire Davis:

Reading can called thoughts hangout, why? Because if you find yourself reading a book mainly book entitled Essential Mathematics and Statistics for Forensic Science your brain will drift away trough every dimension, wandering in every single aspect that maybe unidentified for but surely can become your mind friends. Imaging each word written in a e-book then become one form conclusion and explanation which maybe you never get ahead of. The Essential Mathematics and Statistics for Forensic Science giving you a different experience more than blown away your brain but also giving you useful data for your better life with this era. So now let us teach you the relaxing pattern here is your body and mind are going to be pleased when you are finished examining it, like winning a game. Do you want to try this extraordinary wasting spare time activity?

Ricardo Huddle:

Can you one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Try to pick one book that you never know the inside because don't judge book by its deal with may doesn't work is difficult job because you are afraid that the inside maybe not because fantastic as in the outside seem likes. Maybe you answer might be Essential Mathematics and Statistics for Forensic Science why because the amazing cover that make you consider in regards to the content will not disappoint a person. The inside or content will be fantastic as the outside as well as cover. Your reading 6th sense will directly assist you to pick up this book.
