Understanding Japanese Savings: Does Population Aging Matter? (Routledge Studies in the Growth Economies of Asia) Robert Dekle

Japan's savings are among the highest in the world, and these high rates have played a valuable role throughout the post-war period. However, over the next several decades, Japan's population will be ageing rapidly. Will this lower Japanese savings rates?

Using up-to-date financial and demographical data, author Robert Dekle finds that the answer to this question is an emphatic 'yes'. *Understanding Japanese Saving* holds key lessons for Western nations undergoing similar demographic transformations as well as developing countries looking to establish public savings institutions.
