Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS Jean-Philippe Vasseur M.S. in Computer Science, Mario Pickavet, Piet Demeester

Network Recovery is the first book to provide detailed information on protecting and restoring communication networks, and it sets a sky-high standard for any that may follow. Inside, you'll learn specific techniques that work at each layer of the networking hierarchy-including optical, SONET-SDH, IP, and MPLS-as well as multi-layer escalation strategies that offer the highest level of protection. The authors begin with an incisive introduction to the issues that define the field of network protection and restoration, and as the book progresses they explain everything you need to know about the relevant protocols, providing theoretical analyses wherever appropriate. If you work for a network-dependent organization, large or small, you'll want to keep Network Recovery within reach at all times.

* Shows you how to implement protection and recovery techniques that will save your organization time and money.
* Documents techniques for the optical, SONET-SDH, IP, and MPLS layers, as well as multi-layer escalation strategies.
* Shows you how to evaluate these techniques in relation to one another, so you can develop an optimal network recovery design.
* Provides industry examples and simulation results.
* Delves into the inner workings of relevant protocols and offers theoretical analyses wherever this information contributes to your practical knowledge.

From reader reviews:

Guadalupe Eggleston:

Have you spare time for a day? What do you do when you have considerably more or little spare time? That's why, you can choose the suitable activity intended for spend your time. Any person spent their particular spare time to take a wander, shopping, or went to the Mall. How about open or even read a book eligible Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS? Maybe it is to become best activity for you. You already know beside you can spend your time with the favorite's book, you can better than before. Do you agree with it is opinion or you have different opinion?

David Eaton:

The actual book Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS has a lot info on it. So when you check out this book you can get a lot of advantage. The book was written by the very famous author. Tom makes some research previous to write this book. This particular book very easy to read you can obtain the point easily after perusing this book.

Jon Gonzalez:

Would you one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Attempt to pick one book that you never know the inside because don't determine book by its cover may doesn't work this is difficult job because you are scared that the inside maybe not as fantastic as in the outside appear likes. Maybe you answer can be Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS why because the great cover that make you consider in regards to the content will not disappoint you. The inside or content will be fantastic as the outside or perhaps cover. Your reading sixth sense will directly assist you to pick up this book.

Donald Barber:

A lot of book has printed but it is unique. You can get it by net on social media. You can choose the most beneficial book for you, science, amusing, novel, or whatever simply by searching from it. It is named of book Network Recovery: Protection and Restoration of Optical, SONET-SDH, IP, and MPLS. You can contribute your knowledge by it. Without departing the printed book, it can add your knowledge and make you actually happier to read. It is most critical that, you must aware about guide. It can bring you from one spot to other place.
