## **Advances in Modeling the Management of Stormwater Impacts** William James

Why bother documenting conference proceedings? Simple: accountability. What we are doing to the environment today - and the arguments we use to justify it - will seem incomprehensible in the future. This popular series demonstrates state-of-the-art methods, models, and techniques for water quality management and related environmental issues. The material is peer-reviewed for readability as well as merit. The coverage is multidisciplinary and includes many opposing views.
