Here There Be Monsters: The Legendary Kraken and the Giant Squid HP Newquist

HP Newquist's fast-paced account reveals how long-ago myths about the kraken transformed into the modern study of *Architeuthis dux*, the giant squid. Weaving scientific discovery with historical accounts—along with the giant squid's appearance in film and literature—*Here There Be Monsters* explores the mystery of this creature in fascinating detail. Readers will find that the monster remains hidden no longer, because scientists have finally seen the kraken with their own eyes . . . alive and rising up out of the sea.
