## Answers found here!

In iOS 7, Apple gave the iPhone the most radical makeover in its history. The new software is powerful, sleek, and a perfect companion to the iPhone 5s and 5c—but it's wildly different. Fortunately, David Pogue is back with an expanded edition of his witty, full-color guide: the world's most popular iPhone book.

The important stuff you need to know:

- **The iPhone 5s.** This book unearths all the secrets of the newest iPhone—faster chip, dual-color flash, fingerprint scanner, and more—and its colorful companion, the 5c.
- **The iOS 7 software.** Older iPhones gain Control Center, AirDrop, iTunes Radio, free Internet phone calls, and about 197 more new features. This book covers it all.
- **The apps.** That catalog of 1,000,000 add-on programs makes the iPhone's phone features almost secondary. Now you'll know how to find, manage, and exploit those apps.

The iPhone may be the world's coolest computer, but it's still a computer, with all of a computer's complexities. *iPhone: The Missing Manual* is a funny, gorgeously illustrated guide to the tips, shortcuts, and workarounds that will turn you, too, into an iPhone addict.
