**Gauge Theories in Particle Physics, Second Edition (Graduate Student Series in Physics)** I. J. R. Aitchison, A. J. G. Hey

This book will provide you with a good practical understanding of quantum electrodynamics, quantum chromodynamics and the electroweak theory, which together make up the standard model. The new edition includes over 50 diagrams showing experimental data, allowing the reader to work through calculations in the three gauge theories and compare the results with experiment.

### **From reader reviews:**

#### **Jack Cluck:**

As people who live in the modest era should be up-date about what going on or data even knowledge to make these keep up with the era that is certainly always change and advance. Some of you maybe will certainly update themselves by studying books. It is a good choice for you but the problems coming to you actually is you don't know what kind you should start with. This Gauge Theories in Particle Physics, Second Edition (Graduate Student Series in Physics) is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and wish in this era.

#### **Allan Kean:**

The book Gauge Theories in Particle Physics, Second Edition (Graduate Student Series in Physics) will bring one to the new experience of reading some sort of book. The author style to spell out the idea is very unique. Should you try to find new book to study, this book very ideal to you. The book Gauge Theories in Particle Physics, Second Edition (Graduate Student Series in Physics) is much recommended to you to see. You can also get the e-book through the official web site, so you can more easily to read the book.

#### **Lily Winstead:**

Your reading sixth sense will not betray a person, why because this Gauge Theories in Particle Physics, Second Edition (Graduate Student Series in Physics) guide written by well-known writer who really knows well how to make book that can be understand by anyone who have read the book. Written throughout good manner for you, still dripping wet every ideas and producing skill only for eliminate your hunger then you still skepticism Gauge Theories in Particle Physics, Second Edition (Graduate Student Series in Physics) as good book not only by the cover but also from the content. This is one book that can break don't judge book by its cover, so do you still needing yet another sixth sense to pick that!? Oh come on your examining sixth sense already said so why you have to listening to one more sixth sense.

#### **Terry McConnell:**

Many people spending their time frame by playing outside using friends, fun activity using family or just watching TV all day long. You can have new activity to shell out your whole day by examining a book. Ugh, ya think reading a book can definitely hard because you have to bring the book everywhere? It all right you can have the e-book, delivering everywhere you want in your Smart phone. Like Gauge Theories in Particle Physics, Second Edition (Graduate Student Series in Physics) which is obtaining the e-book version. So , try out this book? Let's see.
