## Pentecostal Theology in Africa (African Christian Studies)

Pentecostal Theology in Africa is a collection of essays that explore the theology of African Pentecostalism from various vantage points. The theological focus of the volume is timely as African Pentecostalism, though well researched, is rarely given a thorough theological elucidation. The book does not approach the issue of African Pentecostalism in a systematic fashion but aims at explicating the theological implications of African Pentecostal practices and beliefs. The book is divided into two sections: the first deals with theological issues and the second with the more practical ramifications. This volume is by no means the last word on this issue but hopes to make a contribution towards opening up more theological discourse in the study of African Pentecostalism over against the historical, empirical, and anthropological.
