Handbook of Fire and Explosion Protection Engineering Principles, Third Edition: for Oil, Gas, Chemical and Related Facilities

Dennis P. Nolan

Handbook of Fire and Explosion Protection Engineering Principles, Third Edition: for Oil, Gas, Chemical and Related Facilities Dennis P. Nolan

Written by an engineer for engineers, this book is both training manual and on-going reference, bringing together all the different facets of the complex processes that must be in place to minimize the risk to people, plant and the environment from fires, explosions, vapour releases and oil spills. Fully compliant with international regulatory requirements, relatively compact but comprehensive in its coverage, engineers, safety professionals and concerned company management will buy this book to capitalize on the author's life-long expertise. This is the only book focusing specifically on oil and gas and related chemical facilities.

This new edition includes updates on management practices, lessons learned from recent incidents, and new material on chemical processes, hazards and risk reviews (e.g. CHAZOP). Latest technology on fireproofing, fire and gas detection systems and applications is also covered.

An introductory chapter on the philosophy of protection principles along with fundamental background material on the properties of the chemicals concerned and their behaviours under industrial conditions, combined with a detailed section on modern risk analysis techniques makes this book essential reading for students and professionals following Industrial Safety, Chemical Process Safety and Fire Protection Engineering courses.

A practical, results-oriented manual for practicing engineers, bringing protection principles and chemistry together with modern risk analysis techniques.

Specific focus on oil and gas and related chemical facilities, making it comprehensive and compact.

Includes the latest best practice guidance, as well as lessons learned from recent incidents.

From reader reviews:

Madeline Wayt:

What do you with regards to book? It is not important along? Or just adding material when you require something to explain what you problem? How about your free time? Or are you busy particular person? If you don't have spare time to try and do others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? All people has many questions above. They need to answer that question because just their can do that will. It said that about reserve. Book is familiar in each person. Yes, it is proper. Because start from on pre-school until university need this particular Handbook of Fire and Explosion Protection Engineering Principles, Third Edition: for Oil, Gas, Chemical and Related Facilities to read.

Barbara Tucker:

Do you have something that that suits you such as book? The publication lovers usually prefer to select book like comic, limited story and the biggest the first is novel. Now, why not trying Handbook of Fire and Explosion Protection Engineering Principles, Third Edition: for Oil, Gas, Chemical and Related Facilities that give your entertainment preference will be satisfied simply by reading this book. Reading practice all over the world can be said as the opportunity for people to know world a great deal better then how they react to the world. It can't be stated constantly that reading behavior only for the geeky person but for all of you who wants to be success person. So , for all of you who want to start reading as your good habit, you may pick Handbook of Fire and Explosion Protection Engineering Principles, Third Edition: for Oil, Gas, Chemical and Related Facilities become your own starter.

Donna Young:

Is it an individual who having spare time in that case spend it whole day by simply watching television programs or just lying down on the bed? Do you need something new? This Handbook of Fire and Explosion Protection Engineering Principles, Third Edition: for Oil, Gas, Chemical and Related Facilities can be the reply, oh how comes? A book you know. You are thus out of date, spending your extra time by reading in this brand new era is common not a nerd activity. So what these books have than the others?

Teresita Donahue:

What is your hobby? Have you heard this question when you got students? We believe that that query was given by teacher with their students. Many kinds of hobby, Everybody has different hobby. And also you know that little person similar to reading or as studying become their hobby. You have to know that reading is very important as well as book as to be the issue. Book is important thing to incorporate you knowledge, except your current teacher or lecturer. You see good news or update in relation to something by book. Numerous books that can you choose to use be your object. One of them is actually Handbook of Fire and Explosion Protection Engineering Principles, Third Edition: for Oil, Gas, Chemical and Related Facilities.
