A Fore Word.

The titlepage of this book explains its plan and purpose. The Courses of Reading and the Schemes for Practical Study, herein indicated, are the outgrowth of the Author's long experience as a lover of books and director of reading. They have been tested and found to be all that is claimed for them. As to the large number of quotations in the first part of the book, they are given in the belief that "in a multitude of counsels there is wisdom." And the Author finds consolation and encouragement in the following words of Emerson: "We are as much informed of a writer's genius by what he selects, as by what he originates. We read the quotation with his eyes, and find a new and fervent sense." As the value of the most useful inventions depends upon their ingenious placing of their parts, so the originality of this work may be found to lie chiefly in its arrangement. Yet the writer confidently believes that his readers will enjoy that which he has borrowed, and possibly find aid and encouragement in that which he claims as his own; and therefore this book is sent out with the hope that book-lovers will find in it a safe Guide to the Best Reading.
