## Foundations of Information and Knowledge Systems: Second International Symposium, FoIKS 2002 Salzau Castle, Germany, February 20-23, 2002 Proceedings (Lecture Notes in Computer Science)

This volume contains the papers presented at the “Second International Symposium on Foundations of Information and Knowledge Systems” (FoIKS 2002), which was held in Schloß Salzau, Germany from February 20th to 23rd, 2002. FoIKS is a biennial event focusing on theoretical foundations of information and knowledge systems. It aims to bring together researchers working on the theoretical foundations of information and knowledge systems and to attract researchers working in mathematical fields such as discrete mathematics, combinatorics, logics, and finite model theory who are interested in applying their theories to research on database and knowledge base theory. FoIKS took up the tradition of the conference series “Mathematical Fundamentals of Database Systems” (MFDBS) which enabled East-West collaboration in the field of database theory. The first FoIKS symposium was held in Burg, Spreewald (Germany) in 2000. Former MFDBS conferences were held in Dresden (Germany) in 1987, Visegrád (Hungary) in 1989, and in Rostock (Germany) in 1991. Proceedings of these previous events were published by Springer-Verlag as volumes 305, 364, 495, and 1762 of the LNCS series. In addition the FoIKS symposium is intended to be a forum for intensive discussions. For this reason the time slot of long and short contributions is 60 and 30 minutes respectively, followed by 30 and 15 minutes for discussions, respectively. Furthermore, participants are asked in advance to prepare as correspondents to a contribution of another author. There are also special sessions for the presentation and discussion of open research problems.

**From reader reviews:**

**Nathan Marker:**

Do you have favorite book? When you have, what is your favorite's book? Guide is very important thing for us to learn everything in the world. Each guide has different aim or even goal; it means that e-book has different type. Some people feel enjoy to spend their the perfect time to read a book. They are reading whatever they get because their hobby is definitely reading a book. Why not the person who don't like reading a book? Sometime, particular person feel need book if they found difficult problem or exercise. Well, probably you'll have this Foundations of Information and Knowledge Systems: Second International Symposium, FoIKS 2002 Salzau Castle, Germany, February 20-23, 2002 Proceedings (Lecture Notes in Computer Science).

**Ruth Jones:**

Nowadays reading books become more than want or need but also become a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge the actual information inside the book that will improve your knowledge and information. The info you get based on what kind of guide you read, if you want get more knowledge just go with knowledge books but if you want truly feel happy read one along with theme for entertaining like comic or novel. Typically the Foundations of Information and Knowledge Systems: Second International Symposium, FoIKS 2002 Salzau Castle, Germany, February 20-23, 2002 Proceedings (Lecture Notes in Computer Science) is kind of guide which is giving the reader unforeseen experience.

**Matthew Ibarra:**

Exactly why? Because this Foundations of Information and Knowledge Systems: Second International Symposium, FoIKS 2002 Salzau Castle, Germany, February 20-23, 2002 Proceedings (Lecture Notes in Computer Science) is an unordinary book that the inside of the reserve waiting for you to snap the idea but latter it will surprise you with the secret the item inside. Reading this book alongside it was fantastic author who all write the book in such amazing way makes the content within easier to understand, entertaining approach but still convey the meaning fully. So , it is good for you because of not hesitating having this nowadays or you going to regret it. This unique book will give you a lot of gains than the other book have got such as help improving your proficiency and your critical thinking method. So , still want to postpone having that book? If I were you I will go to the publication store hurriedly.

**Vickie Kay:**

The book untitled Foundations of Information and Knowledge Systems: Second International Symposium, FoIKS 2002 Salzau Castle, Germany, February 20-23, 2002 Proceedings (Lecture Notes in Computer Science) contain a lot of information on this. The writer explains the woman idea with easy approach. The

language is very clear and understandable all the people, so do not worry, you can easy to read this. The book was authored by famous author. The author will take you in the new age of literary works. You can easily read this book because you can read more your smart phone, or model, so you can read the book inside anywhere and anytime. In a situation you wish to purchase the e-book, you can available their official website and also order it. Have a nice read.
