The new edition of this well-known hybrid anatomy core text and atlas takes you from knowing human anatomical structures in the abstract to identifying human anatomy in a real body. Now fully revised and updated, it remains the only text and atlas of gross anatomy that illustrates all structures using **high-quality dissection photographs** AND **clearly labelled line drawings** for each photograph. This is combined with concise yet thorough text to support and explain all key human anatomy and clearly relate it to clinical practice.

New photographs reflect the latest imaging techniques as seen in current practice
